Cattle Market Was Unchanged but Active.

pers who had hogs on the Wichita market esterday primes were five to ten weats higher. Receipts were nemowhat larger than expected, but Told and Cutsley wanted the humanno their buyers stayed on the market until late in the night and the buyers for the hogs but it is friendly They simply want the logs and usually the get buyer to the pens gots them. There was only a part of a car load estimated on and held over. They were otes weighing only 13 gounds. The buyplus weighing only its pounds. The buyris showed a preference for the heavyhome and the top rice was 8.15 for onear load, while another car load not quite
an good brought \$6.15. The buyers daimed that their beavy hogs cost them teacosts higher and the common hogs avernging around two hundred were two to
seven and a half ceats higher than the
previous day. Armour's buyer refused to
take any hogs, claiming that when
freights were odded his hogs would cost
him away above himsas City prices. Not
very much figuring is required to prove
the correctness of his proposition. Thusthe correctness of his proposition. Thisse is no getting around the fact that hogs are selling communatively high on this mories and how long it will continue can not even be guessed. The advance is shown even in the wagon deliveries and whenever a farmer brings in a good heavy hog the buyers go after it just as lively as after the car loads.
